Centrifugal Inline Duct Fans

Model Comparison																						
Model	Location		Mounting			Airflow			Application			Drive Type	Impeller Type		Performance							
	Outdoor	Indoor	Roof Curb	Base/Floor	Hanging	Wall	Ceiling Mounted	Exhaust	Supply	Reversible	Recirculate	General/Clean Air	Contaminated Air	Spark Resistant	High Temp (above 121°C)	Belt	Direct	Centrifugal	Propeller/Axial	Mixed Flow	Maximum Volume (cm³)	Maximum Static Pressure (Pa)
SQ-M		X		X	X			X	X		X	X	X	X			X	X			8,537	435
BSQ-M	X	X		X	X			X	X		X	X	X	X		X		X			45,194	955

Greenheck's model SQ-M and BSQ-M centrifugal inline fans feature a unique combination of installation flexibility, rugged construction, ease of service, high efficiency and low sound levels. These compact inline fans are the ideal selection for indoor and outdoor clean air applications, including intake, exhaust, return or make-up air systems, where space is a prime consideration. The need for costly square-to-round transition pieces are eliminated, reducing installation costs. The square housing design, compact size, and straight-thru airflow also give the system designer the flexibility to mount SQ-M and BSQ-M fans in any configuration - horizontal, vertical, or at any angle.

Direct Drive Fan, SQ-M

- 8 sizes, 70-160
- Efficient air movement
- Low sound levels
- Maximum operating temperature of 54°C (130°F)

Belt Drive Fan, BSQ-M

- 22 sizes, 70-420, including High Pressure (HP)
- Ideal for clean air applications where space is limited
- Low sound levels
- Maximum operating temperature of 82°C (180°F)

CERTIFICATIONS AND TESTING

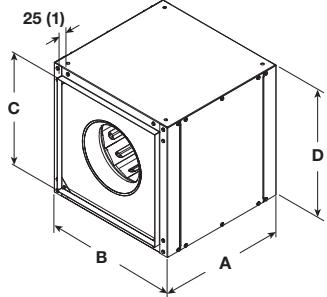

- AMCA Sound and Air certified for models SQ-M and BSQ-M
- Performance as cataloged is assured. All fan sizes are tested in our AMCA Accredited Laboratory, and all models are licensed to bear the AMCA sound and air performance seals.
- Greenheck subjects these products to extensive life testing, assuring you that the fans will provide many years of reliable performance.

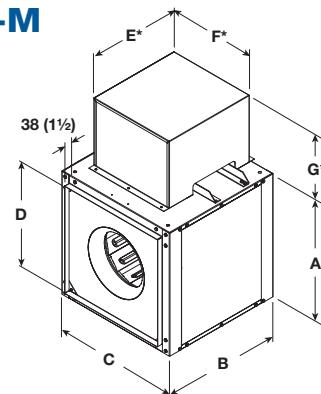

Greenheck India Private Limited certifies that the SQ-M and BSQ-M models shown herein are licensed to bear the AMCA Seal. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 211 and AMCA Publication 311 and comply with the requirements of the AMCA Certified Ratings Program. The certified ratings for models SQ-M and BSQ-M are shown on pages 5 to 34.

Dimensional Information

SQ-M

BSQ-M

Model SQ-M

Size	A	B	C	D	Outlet Velocity	Unit Weight*	Housing Material	Damper Size
70	305 (12)	330 (13)	305 (12)	225 (8 $\frac{1}{2}$)	1.828 x CFM	12 (26)	20 ga	229 x 229 (9 x 9)

All dimensions are in millimeters (inches) and weight is shown in kilograms (pounds).

*Motor cover is optional. Dimensions may vary with motor size. **Weight shown is largest catalogued open drip proof motor.

Discharge Configuration

The side discharge option helps to reduce system effect. It will increase performance and reduce installation labor. The most notable is reducing system effects. Note the figure 1 example, it shows the air being discharged into the corner. It will take several duct lengths before the airflow becomes laminar or smooth again after making the turn. In figure 2, the fan is placed in the corner using a side discharge. In this configuration the air flow pattern at discharge is smooth and supports a more predictable system. Remember the duct length on the discharge side should be approximately two to three wheel diameters to achieve catalog performance.

Fan performance will change with different discharge positions. Catalog data is based on an inline discharge. Right side discharge will give you 108% of cataloged performance and left side will give you 109% of cataloged performance. Use Figure 3 to locate the orientation to fit your application. Figure 4 illustrates the proper side discharge definitions. Refer to the CAPS program or consult factory for performance modifications.

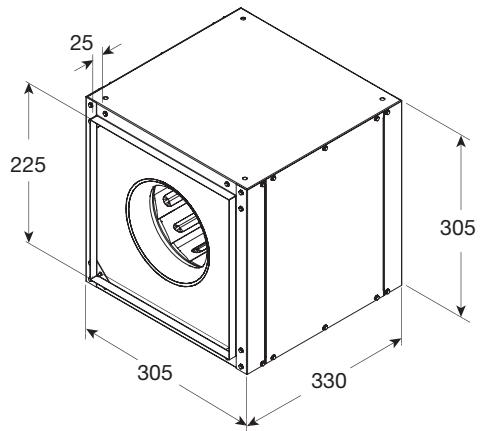

SQ-M Side Discharge Duct Openings

Performance certified is for installation type B: Free inlet, Ducted outlet. Performance ratings do not include the effects of appurtenances (accessories). Power rating kW does not include transmission losses. The A-weighted sound power ratings shown have been calculated per AMCA Standard 301. Values shown are for Inlet LwA sound power levels for: Installation Type B: free inlet, ducted outlet. Ratings do not include the effects of duct end correction for the outlet duct. dBA is an A-weighted sound pressure level based on 11.5 dB attenuation per octave band at 1.5 m (5.0 ft.). dBA levels are not licensed by AMCA International.

Damper size = 305 x 305 mm

Unit weight** = 48 kg

Housing thickness = 20 ga

Dimensions shown in millimeters.

*May be greater depending on motor.

**Weight shown is largest cataloged Open Drip Proof motor.

Performance certified is for installation type B: Free inlet, Ducted outlet. Performance ratings do not include the effects of appurtenances (accessories). Power rating kW does not include transmission losses. The A-weighted sound power ratings shown have been calculated per AMCA Standard 301. Values shown are for Inlet LwA sound power levels for: Installation Type B: free inlet, ducted outlet. Ratings do not include the effects of duct end correction for the outlet duct. dBA is an A-weighted sound pressure level based on 11.5 dB attenuation per octave band at 1.5 m (5.0 ft.). dBA levels are not licensed by AMCA International.

Power rating kW does not include transmission losses. The A-weighted sound power ratings shown have been calculated per AMCA Standard 301. Values shown are for Inlet LwA sound power levels for: Installation Type B: free inlet, ducted outlet. Ratings do not include the effects of duct end correction for the outlet duct. dBA is an A-weighted sound pressure level based on 11.5 dB attenuation per octave band at 1.5 m (5.0 ft.). dBA levels are not licensed by AMCA International.

Damper size = 508 x 508 mm

Unit weight** = 66 kg

Housing thickness = 20 ga

Dimensions shown in millimeters.

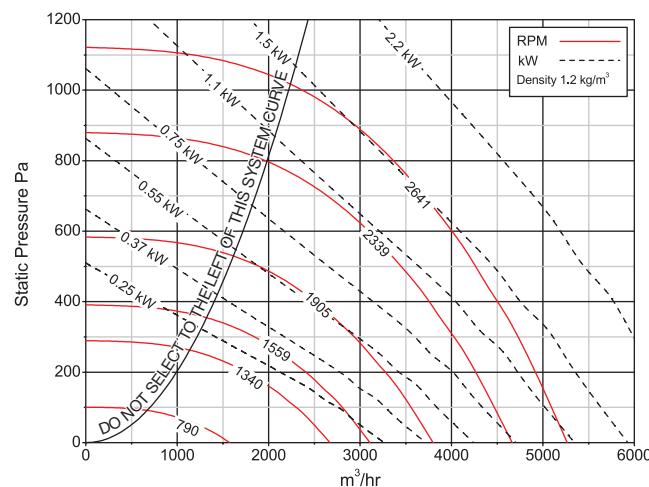

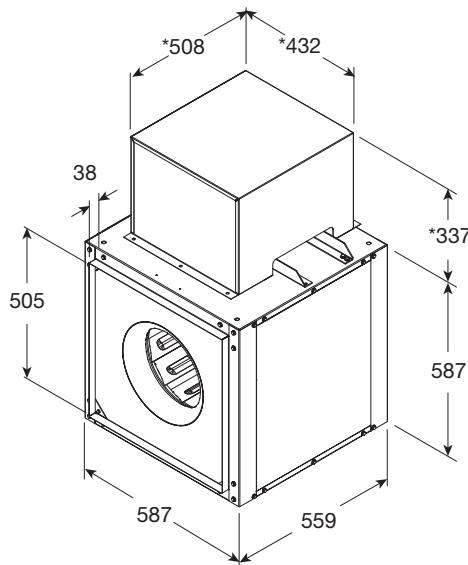

*May be greater depending on motor.

**Weight shown is largest cataloged Open Drip Proof motor.

Performance certified is for installation type B: Free inlet, Ducted outlet. Performance ratings do not include the effects of appurtenances (accessories). Power rating kW does not include transmission losses. The A-weighted sound power ratings shown have been calculated per AMCA Standard 301. Values shown are for Inlet LwA sound power levels for: Installation Type B: free inlet, ducted outlet. Ratings do not include the effects of duct end correction for the outlet duct. dBA is an A-weighted sound pressure level based on 11.5 dB attenuation per octave band at 1.5 m (5.0 ft.). dBA levels are not licensed by AMCA International.

Performance certified is for installation type B: Free inlet, Ducted outlet. Performance ratings do not include the effects of appurtenances (accessories). Power rating kW does not include transmission losses. The A-weighted sound power ratings shown have been calculated per AMCA Standard 301. Values shown are for Inlet LwA sound power levels for: Installation Type B: free inlet, ducted outlet. Ratings do not include the effects of duct end correction for the outlet duct. dBA is an A-weighted sound pressure level based on 11.5 dB attenuation per octave band at 1.5 m (5.0 ft.). dBA levels are not licensed by AMCA International.

Damper size = 1067 x 1067 mm

Unit weight** = 244 kg

Housing thickness = 16 ga

Dimensions shown in millimeters.

Power rating kW does not include transmission losses. The A-weighted sound power ratings shown have been calculated per AMCA Standard 301. Values shown are for Inlet LwA sound power levels for: Installation Type B: free inlet, ducted outlet. Ratings do not include the effects of duct end correction for the outlet duct. dBA is an A-weighted sound pressure level based on 11.5 dB attenuation per octave band at 1.5 m (5.0 ft.). dBA levels are not licensed by AMCA International.

BSQ M420 - Belt Drive

Damper size = 1372 x 1372 mm

Unit weight** = 358 kg

Housing thickness = 16 ga

Dimensions shown in millimeters.

*May be greater depending on motor.

**Weight shown is largest cataloged Open Drip Proof motor.

MAX kW = 7.5 kW
MAXIMUM FAN RPM = 670
MAX MOTOR FRAME SIZE = 132L

Performance certified is for installation type B: Free inlet, Ducted outlet. Performance ratings do not include the effects of appurtenances (accessories). Power rating kW does not include transmission losses. The A-weighted sound power ratings shown have been calculated per AMCA Standard 301. Values shown are for Inlet LwA sound power levels for: Installation Type B: free inlet, ducted outlet. Ratings do not include the effects of duct end correction for the outlet duct. dBA is an A-weighted sound pressure level based on 11.5 dB attenuation per octave band at 1.5 m (5.0 ft.). dBA levels are not licensed by AMCA International.

Design and Selection Support

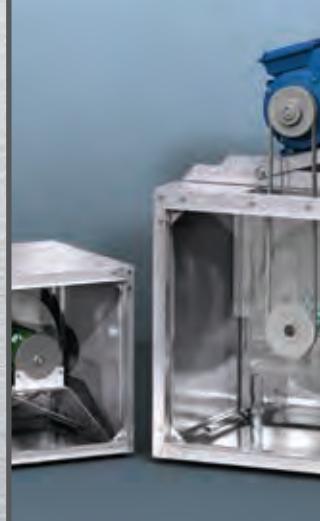

Enjoy Greenheck's extraordinary service, before, during and after the sale.

Greenheck offers added value to our wide selection of top performing, energy-efficient products by providing several unique Greenheck service programs.

- Greenheck's free Computer Aided Product Selection program (CAPS), rated by many as the best in the industry, helps you conveniently and efficiently select the right products for the challenge at hand.
- Greenheck has been Green for a long time! Our energy-saving products and ongoing corporate commitment to sustainability can help you qualify for LEED credits.

Find out more about these Greenheck services at www.greenheck.co.in

Building Value in Air

Greenheck delivers value to mechanical engineers by helping them solve virtually any air quality challenges their clients face with a comprehensive selection

of top quality, innovative air-related equipment. We offer extra value to contractors by providing easy-to-install, competitively priced, reliable products that arrive on time.

And building owners and occupants value the energy efficiency, low maintenance and quiet dependable operation they experience long after the construction project ends.

Our Commitment

As a result of our commitment to continuous improvement, Greenheck reserves the right to change specifications without notice.
