## INTRODUCTION

### Centrifugal Inline Fan CI & CI-TDA Models

The Centrifugal Inline Fan, model CI, are quiet ceiling exhaust fans. Some selections are available with sound ratings below 1 sone. There are 15 types of models that cover a wide range of performance. The units are easily field convertible to change the discharge orientation from right angle to top discharge. They are also easily field convertible from ceiling (model CI) to inline (model CI-TDA) installations. There are multiple sizes that utilize 2 speed motors that allow these units to cover an even greater range. All motors are equipped with thermal overload protection as standard. The units utilize quick access wiring to make them easy to install. Many of the units are offered with variable speed motor control which will allow for easy balancing. All models are AMCA Air and Sound rated and UL507 listed. Select models are UL705 listed. ENERGY STAR® is also available on select models.

*Centrifugal Inline Fan TDA*

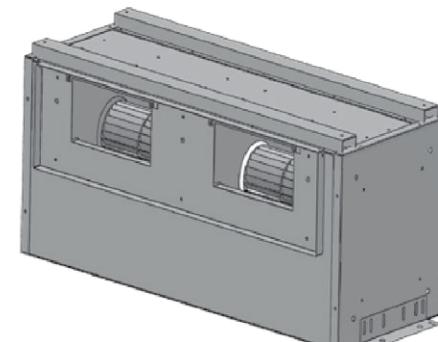

*Centrifugal Inline Fan*

### Model: CI2 - CI12

- Centrifugal Inline Fan models are ENERGY STAR approved.
- Static pressure up to 1.73" wg.
- Flow capacity up to 1566 CFM.

### Model: CI14 & CI15

- Static pressure up to 1" wg.
- Flow capacity up to 3290 CFM.

## INTRODUCTION

### Centrifugal Inline T & Jr.

The CIT, and CIJ1, are quiet low profile Fan. They can be installed into very shallow ceilings where other units will not fit. A speed controller is available for both models for precise system balancing and energy conservation. The units come standard with thermally protected motors, AMCA Air rated and UL705, UL507, and CSA listed.

### Model: CIT & CIJ1

- Static pressure up to 0.93" wg.
- Flow capacity up to 174 CFM.

### Transfan

The Transfan is a room-to-room transfer fan. It has an adjustable wall sleeve for varying wall thicknesses and fits easily between wall studs or ceiling joists. It is supplied with a built-in variable speed motor control. It is UL705, UL507, and CSA listed.

### Model: CIF

- Static pressure up to 0.28" wg.
- Flow capacity up to 255 CFM.

### Centrifugal Low flow Ceiling Fan

The CL1, is for very low flow requirements. The unit comes with a white polymeric grille and utilizes a quiet centrifugal blower wheel. The housing is made from rugged steel and has built in mounting brackets. The exhaust connection is a 4" polymeric round duct connector that has a durable damper that eliminates backdrafts and produces no metallic clatter. The CL1 is UL507 listed for use over bathtubs and showers when connected to a GFCI protected branch circuit. The CL1 is AMCA licensed for Sound and Air performance.

### Model: CL1

- Static pressure up to 0.5" wg.
- Flow capacity up to 56 CFM.

## INTRODUCTION

### Centrifugal Inline Ceiling Fans with Light

The Light models, CIL1 and CIL2, come with a maximum of 100 watt incandescent lighting (bulb not included). The units are supplied with an open drip proof motor that utilizes sealed bearings. The units come with a white polymeric grille that has an unbreakable light lens. They utilize quiet centrifugal blower wheels with plug-in receptacles for the fan and light. The housing is made from rugged steel and has built-in mounting brackets. The exhaust connection is a 4" polymeric round duct connector that has a durable damper that eliminates backdrafts and produces no metallic clatter. The models are UL507 listed for use over bathtubs and showers when connected to a GFCI protected branch circuit. The units are AMCA licensed for Sound and Air performance.

### Model: CIL1 & CIL2

- Static pressure up to 0.5" wg.
- Flow capacity up to 97 CFM.

### Centrifugal Inline Quiet Ceiling Fan

The Quiet line (CIQ) achieves a <0.3 Sone level which provides a nearly silent operation for minimal disruption of your environment. Suitable for intermittent or continuous ventilation needs, the unit comes with a white polymeric grille and utilizes a quiet centrifugal blower wheel. The housing is made from rugged steel and has built-in mounting brackets. The exhaust connection is a 6" polymeric round duct connector that has a durable damper that eliminates backdrafts and produces no metallic clatter. The Centrifugal Inline Fan Quiet Light (L) models comes with a bright, energy efficient 36-watt fluorescent lighting. The CIQ line is UL507 listed for use over bathtubs and showers when connected to a GFCI protected branch circuit. The CIQ line is AMCA licensed for Sound and Air performance and ENERGY STAR® certified.

### Models: CIQ80(L)-GPE & CIQ110(L)-GPE

- Static pressure up to 0.625" wg.
- Flow capacity up to 110 CFM.

## CERTIFICATIONS & LISTINGS

### AMCA Certification

York® certifies that the Centrifugal Inline Fan models shown on this catalog (excludes Transfan) are licensed to bear the AMCA Seal. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 211 and AMCA Publication 311 and comply with the requirements of the AMCA Certified Ratings Program.

### UL and cULus® Certification

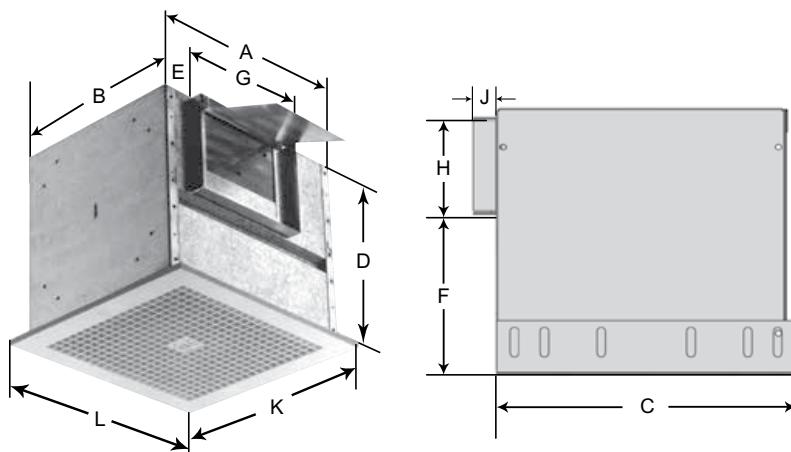

Centrifugal Inline Fan carry the UL label, UL705, (CIACT/CIACT7), file #E477250 and UL507, (GPWX), file #E477251. Centrifugal Inline Fan radiation dampers carry the UL label UL555C, (CABS), file #R8039.

Models CI1, CIL1, CIL2, CI8-GP, CI10-GP, CI12-GP, CIQ80(L)-GPE, CIQ110(L)-GPE, CI8-GPE, CI10-GPE, CI12-GPE are not UL705 certified. Model CI15 is not UL507 certified.

Fans that are ENERGY STAR® qualified include: CI2-E, CI8-GPE, CI10-GPE, CI12-GPE, CIQ80(L)-GPE and CIQ110(L)-GPE

- (1) Speed (RPM) shown is nominal. Performance is based on actual speed of test.
- (2) Performance shown is for installation type B - Free Inlet, Ducted Outlet. Performance ratings include the effects of an inlet grille and backdraft damper in the airstream.
- (3) The sound ratings shown are loudness values in fan sones at 5ft. (1.5m) in a hemispherical free field calculated per AMCA Standard 301.
- (4) The spherical sones values are calculated to represent sound in a spherical free field at 5 ft. (1.5m) per Annex B of AMCA 311.
- (5) Specify discharge configuration. Standard types are RA, TD, TDA and TDA-RA.
- (6) CI6S and CI6H is the same unit shipped with EASYTAP dual speed motor. Wired on S (low) speed.
- (7) CI8S and CI8H is the same unit shipped with EASYTAP dual speed motor. Wired on S (low) speed.
- (8) CI10S and CI10H is the same unit shipped with EASYTAP dual speed motor. Wired on S (low) speed.

- (1) Speed (RPM) shown is nominal. Performance is based on actual speed of test.
- (2) Performance shown is for installation type B - Free Inlet, Ducted Outlet. Performance ratings include the effects of an inlet grille and backdraft damper in the airstream.
- (3) The sound ratings shown are loudness values in fan sones at 5ft. (1.5m) in a hemispherical free field calculated per AMCA Standard 301.
- (4) The spherical sones values are calculated to represent sound in a spherical free field at 5 ft. (1.5m) per Annex B of AMCA 311.
- (5) Specify discharge configuration. Standard types are RA, TD, TDA and TDA-RA.
- (6) CI6S and CI6H is the same unit shipped with EASYTAP dual speed motor. Wired on S (low) speed.
- (7) CI8S and CI8H is the same unit shipped with EASYTAP dual speed motor. Wired on S (low) speed.
- (8) CI10S and CI10H is the same unit shipped with EASYTAP dual speed motor. Wired on S (low) speed.

- (1) Performance shown is for installation type A - Free inlet, Free outlet.
- (2) Performance ratings include the effects of inlet grille and backdraft damper in the airstream.
- (3) Speed (RPM) shown is nominal. Performance is based on actual speed of test.
- (4) The sound ratings shown are loudness values in fan sones at 5ft. (1.5m) in a hemispherical free field calculated per AMCA Standard 301.
- (5) The spherical sones values are calculated to represent sound in a spherical free field at 5 ft. (1.5m) per Annex B of AMCA 311.
- (6) Values shown are for installation Type A: free inlet fan sone levels. The AMCA Certified Ratings Seal applies to air performance ratings only.
